D'Annunzio Prepares To Widen His Power

(A. P. Special Cable.)
Belgrade, Nov. 20.—Gabriele D'Annunzio is preparing for a raid on Spalato, according to reports from that city. It was D'Annunzio's original intention to go to Spalato about the time he visited Zara, but instead he returned to Fiume.
D'Annunzio, the advice added, also plans an attack from Zara on Montenegro.

BRITAIN WILL NOT ALTER HER PLANS FOR EGYPT

Regarding Herself Trustee for Whole People, Will Send Commissioner.
(A. P. Special Cable.)
London, Nov. 20.—Great Britain declines to be deflected from her Egyptian policy by the demonstration that is taking place in Egypt on the part of the Nationalists, according to well-informed sources. She is absolutely determined, it is indicated, to continue in the course mapped out as she regards herself as trustee for the whole people of Egypt.
Therefore, despite the demonstrations against it, the Commissioner appointed by Lord Milner, the secretary for the Colonies, will proceed to Cairo in due course, it is declared.
TEN KILLED IN RIOT.
Cairo, Sunday, Nov. 16.—Ten persons were killed and 120 injured, many of whom suffered gunshot wounds, in a riotous demonstration which continued here all day to-day. The disorder was the most serious since the disturbances last March and April.
Three police stations were set on fire by mobs, which liberated prisoners and paraded the streets carrying wounded rioters. British troops finally succeeded in restoring order.

PREPARING VACCINE TO FIGHT SMALLPOX EPIDEMIC.

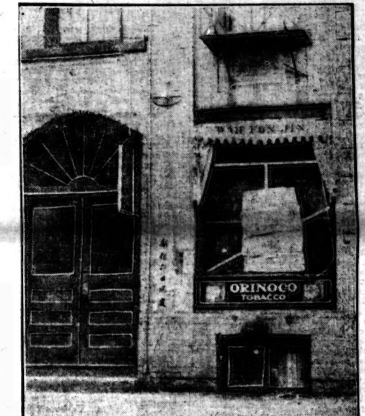

The lower picture shows the farm section of the Connaught Laboratories, situated twelve miles north of Toronto. This picture was taken from the north-east, and shows the superintendent's residence on the left. Above on the right-hand corner are illustrated the incubators in which broths for the propagation of Diphtheria anti-toxin and spinal meningitis serum are kept at blood heat, 98 degrees Fahrenheit, at which temperature they thrive best. There is very little difference in construction from an incubator for eggs. To the left of the latter a calf is shown receiving her preliminary inoculation, preparation to be shaved. On the extreme left of the picture is shown the "pulpit," or pustulated area from the calf's abdomen, a green material, which is used in the production of the laboratories at the University to be refined.

VLADIVOSTOK REVOLUTION CRUSHED BY GOVERNMENT

Social Revolutionary Zemstvo Group Proclaimed a New Republic

But Their Army Leader Was Defeated and Captured After Battle

(A. P. Special Cable.)
Vladivostok, Tuesday, Nov. 18.—Revolutionary forces, which for the last two days have attempted to secure control of this city, were completely defeated by Government troops to-day, in a battle which was commenced before dawn. General Gaidar, the revolutionary leader, was wounded and captured, and his followers were driven from every point of vantage by Government troops.
Shortly after midnight the Government troops moved two three-inch field guns into position at the Svevian bridge, by which the main thoroughfare of the city crosses the Siberian railway. The bridge is only 500 yards north of the station, the strongest position of the rebels. A little later troops, reinforced by 100 cadets from the naval training school, proceeded to the business centre of the city, where armed cars began arriving at the bridge.
Before the battle opened, international policemen descended in passing entrance to the railway station, from which they took two Russian women who had been manœuvring there since the fighting started. At 1 o'clock there was a burst of machine gun fire against rebels holding the railway yards, and gunboats started to drop shells on the station. While Government officials expressed the belief that there would be little resistance by the rebels, the latter seemed to be in control of the railroad yards, although exposed to heavy fire from the high ground about the city.
The station was opened at 4 o'clock on the station from field guns stationed at the Svevian bridge, which had a clear field of fire. Later the fighting became general, with the revolutionaries falling back everywhere and finally being driven from the station. After three raids against the railroad station on Monday, General Gaidar's troops occupied the building, and he established his headquarters there at about 5 p.m. The losses in the fighting were six dead and twenty wounded on the Gaidar side. The losses to the Government troops were not given out. It is estimated that the civilians were victims of the fighting on Monday, some being killed and many others injured.
A British Red Cross officer was killed at the station plaza. Communication by railway with Vladivostok has been suspended. It is reported that a similar uprising has occurred at Chita, in the Trans-Baikal region.
The attempted revolution started on Monday morning at 8 o'clock, when the social revolutionary Zemstvo group proclaimed a new democratic representative government.
Headed on top of General Gaidar's train near the station was a green and white flag, the colors of the Siberian Assembly, which was dissolved by Admiral Kholodsk. On the banner was inscribed the words "For a constitutional assembly."
Following the proclamation of the revolutionaries yesterday morning, in which they announced their open opposition to the Omak Government and Admiral Kholodsk as supreme ruler, a semblance of a ministry was formed on General Gaidar's train. Ivan Alekseyevich Yakushev, being named President. Gaidar was named commander-in-chief of the new government's military forces.
Announcement was made by the Allied Military Council at 6 o'clock, to the effect that it had considered the policy to be followed, and had decided that the Allies should not interfere in the movement, which was considered political in character.

WHAT WILL WILSON DO AS TO PEACE TREATY?

Its Fate As Far As the States Are Concerned, Is Entirely In His Hands

Peace Conference Circles Are Surprised, But France Is Not

(Canadian Press Wire.)
Washington, Nov. 20.—The fate of the treaty of peace with Germany and the League of Nations, so far as the United States is concerned, today again is in the hands of President Wilson, whose name is being brought up in all efforts to have the treaty ratified in some form by the Senate. The situation just where it is six months ago, when the pact was submitted to the upper house of Congress, and tenaciously peace is no nearer than it is to-day, more than a year ago.
With the much debated and much contested document thrust back upon him, the next move is up to the President, and to-day there was no indication what course he could pursue in any event. It was not believed there would be any development until Congress reconvenes Dec. 1, in regular session. Opinion is that he may be expected then to divide, Senate Lodge, majority leader, who led the forces opposed to adoption of the treaty as presented, declared the failure of ratification last night killed the treaty unless President Wilson "circumvented the Senate rules by withdrawing it and then re-submitting it at the next session next month."
Democratic leaders suggested that the President, during the recess, might try to feel out the other powers as to their attitude on reversion to a view of bringing the treaty to some sort of ratification at the December session. If re-submitted, the treaty would come before the Senate practically as new business, and would not be governed by the closure rule invoked in the closing days of the session just adjourned.
PEACE CONFERENCE AMAZED.
Paris, Nov. 20.—The adjournment of the United States Senate for the winter has caused surprise in the Peace Conference circles, as suggested from Washington had suggested that the conference would be composed of seventeen men, including Government officials, business men, and former members of the Cabinet and former Governors of states, and it will carry on the work undertaken by the National Industrial Conference, which founded on the rock of collective bargaining.

TARIFF IS BAD FOR DOMINION

Hon. T. A. Crerar Denounces It at Regina

And Booms the "New National Policy"

(Canadian Press Wire.)
Regina, Sask., Nov. 20.—Introduced as the man who had broken from the Union Government on a question of principle, Hon. T. A. Crerar, former Federal Minister of Agriculture, addressed a packed audience in the City Hall last night, outlining the history and enacting the principles of the new national policy.
The speaker, in the recent convention of the Canadian Council of Agriculture, he appealed to the people of the Dominion to identify themselves with the principles which the policy involves.
The struggle in the main line in the Federal field at the present time, he said.
The speaker again emphasized the statement that the Government was not a class vote politician, but the principles of the Canadian Council of Agriculture, as a policy which could be endorsed by all classes. He dealt with a number of the planks in the platform, and especially to that of the tariff. The tariff he denounced as bad for the country from an economic viewpoint and also as a corrupting influence in the political life and government of the nation.

POLICE PAY Men Have Support From Toronto.

To-morrow evening the Board of Police Commissioners will meet in the City Hall to consider the matter of the salaries of the members of the local force. This morning it was stated that the men are prepared to put up a considerable fight, if they do not get a raise. And this would embrace practically every branch of every member of the force. The matter will be placed before the board by delegation, composed of Detective Shirley, Sergeant Gibbs, and Constables Goddard, Green and McNair. The delegation will place before the board the action of the Toronto commissioners, who at a meeting held yesterday declared themselves in favor of considerable increase for the members of the Toronto force, from the first of next year.
